Jumbo Series and Agency Products

Industry Leading Jumbo Loans

There's no need to turn away qualified jumbo borrowers simply because they don't meet the criteria for conventional loans. We have a choice of jumbo loan options that you can offer to borrowers with complete confidence.

Fannie Mae & Freddie Mac

As a direct seller/servicer to Fannie Mae and Freddie Mac, NewRez offers competitive pricing, expanded guidelines, and a seamless process — from application to funding. Our portfolio includes Conventional, HomePossible, and HomeReady loans.

SMART Series (Non-Qm)

With these "niche" loans at your disposal, you can attract more borrowers. They are designed for buyers seeking a loan with specific characteristics not available in Qualified Mortgage (QM) loan products.

SmartSelf simplifies the qualifying and approval process for self-employed borrowers. Financing of up to \$3 million is available — with no tax returns required.

SmartEdge is an alternative jumbo mortgage that allows buyers who don't fit into traditional mortgage guidelines to finance or refinance a new home, second home, or investment property.

SmartTrac offers a second chance to homebuyers with negative credit — including bankruptcy and short sale — with just a 12-month waiting period.

SmartVest is designed for experienced real estate investors with multiple financed properties and complex finances. It offers flexible guidelines and interest-only options.

SmartCondo is designed for borrowers seeking flexible financing options for condominium properties that don't meet agency guidelines.

SmartFunds is designed for strong credit qualifying borrowers that permits the use of assets verified by asset statements to support their ability to repay for qualification purposes.
